Ways of Traveling.
The Ambler, who perhaps, as the Saunterer the Sprinter and the Wanderer, has traveled more miles in Plymouth county than any other man, by various ways of getting there, such as walking, riding in a carriage, by auto and on trains, hereby presents to the readers of these papers a few things that he has learned.

What He Finds.
He finds that it is a great deal pleasanter to ride than it is to walk, and that the electric cars are the cheapest method of getting there. "How much pleasanter it is to sit in an electric car and ride, then it is to walk, and think how much pleasanter it is to sit in an electric car than it is to walk; than it is to walk and think how much pleasanter it is, to sit in an electric car than it is to walk."

Some of His Experiences.
He is of the opinion that electric cars are the greatest public service utility that we have today, and his peregrinations often compel him to go to places not reached by electric, he here compares the cost of traveling where the cars run and localities in which they are unknown. In Hingham and at Nantasket Beach he can ride on the street cars, and at present it costs him as follows:
Queen Anne Corner-Hingham, .15
Hingham-East-Weymouth, .05
Hingham-Crow Point, .05
North Cohasset-Quinn Annex, .10
North Cohasset-East Weymouth, .10
North Cohasset-Rockland, .20
North Cohasset-Assinippi, .15
This is cheaper than walking. The proposed increase in transfer limits will add a little to these sums. How much he does not know, and from the reports in the daily and weekly papers is not able to ascertain.

By Auto Or Barge.
In places that are not reached by

electric he is forced to travel by public carriage, in auto or by Shinn's mare. Of course sometimes he rides in the EAST WIND SPECIAL, Mrs. Sirovich's Ford, but he generally prefers to go it alone, so he finds it necessary on occasions to ride in a public carriage or charter an auto and chauffeur, and then the price soars. Walking, for chivalry has got the other methods beaten to a frazzle.

Some Auto Fares.
When it becomes necessary for him to employ an automobile he pays the following fares:
Assinippi-Norwell, \$1.00
Hanover-Marshfield, 2.00
Hanover-Two-Mile, \$1.00
Two-Mile-N. Marshfield, \$2.00
Nantasket Stn.-Cohasset, \$2.00
Ride Around Jerusalem Road, \$2.00
These fares are almost beyond the reach of even a newspaper man, and are almost prohibitive.

Rides In Public Carriages.
At some of the station along the line of the steam railroad carriages are in waiting to carry passengers. The fares for this service are as follows:
Greenbush-Norwell, .25
Sittuate Sta.-The Harbor, .15
Sittuate Sta.-Third Cliff, .25
Sittuate Sta.-Sand Hills, .25
Sittuate-Minot, .25
Marshfield-Brant Rock, .30
Marshfield Hills-Hummarock, .25
Marshfield Hills-Sea View, .15
Green Harbor Sta.-Riverside House, .25
Nantasket Sta.-Green Hill, .25

RE-UNION HELD AT THE BREAKERS.

The Assinippi Institute was an outgrowth of the Hanover Academy and was started in 1841 by Mr. Samuel G. Stone, assisted by several of the influential citizens of the section of the country around Assinippi. It was designed to supply a High School education, there being none in any of the surrounding towns. It was conducted very successfully for about seven years, having during that time three teachers whose names stand high in educational circles, Messrs. Stone, Greenley and Thompson. It was disbanded when high schools were instituted in Hanover and surrounding towns. Among the pupils who attended are numbered some of the most prominent citizens of our state, some of whom have gone far afield and made name and fame. On Saturday, October 9th, Mrs. Julia Cashman Rindon of Rockland entertained the Alumni Association of the Assinippi Institute at her summer home, "The Breakers" at Allerton. After a varied and somewhat laughable experience "getting there" (we use the word advisedly) by all the means, the company assembled and sat down to one of Mrs. Rindon's famous turkey dinners. To preserve the seashore idea clam chowder was served first and then came what one of the Episcopalian members of the party designated as "a sumptuous repast of roast turkey with all the fixings." It was a regular Thanksgiving dinner even to the strawberry ice cream. One of the members said "If your write-up please mention the little eaters." The reader will not have any trouble in guessing the sex of the speaker on that occasion, and will also observe that the up-to-dateness of the old school is more than a tradition, because the "boys" use modern slang. After doing justice to the dinner, a business meeting was held, followed by a most pleasing memorial service for those members who had passed on during the year. The memorial service was the most simple and effective one the writer ever attended. It consisted of a bit of the loved ones' history and some reminiscences of their good deeds and qualities.

Those present were Herbert L. Curtis, Assinippi; Mr. and Mrs. Richard Talbot, Plymouth; Edward E. Jacobs, Brookline; Mrs. Grace H. Rogers, Marshfield Hills; Mrs. Evelyn W. Farrar, Dorchester; George W. Bailey, Norwell; Mr. and Mrs. Henry L. Shute, Hingham; Mrs. Ella A. Randall Vining, Norwell; Amasa D. Stoddard, South Weymouth; Emma L. Beal, Mr. and Mrs. Horace S. Cram, No. Hanover; S. Dexter Brooks, Boston; Hattie R. Poole, No. Hanover; Mrs. M. Jane Curtis, Mr. and Mrs. S. O. Jacobs, Mrs. Annie L. J. Briggs; Mrs. Annie L. B. West; Mr. and Mrs. C. M. Briggs; Mr. and Mrs. E. A. Turner, Miss Vesta Ewell, Helen E. Litchfield, Norwell; Little Chamberlain, No. Hanover; Aurelia Hall Bonney, West Hanover; Mrs. Emma F. Cushing, Greenbush. Out of the 100 members living, 32 were present. The officers for the coming year are: Richard Talbot, president; Harriet Poole, vice-president; Grace H. Rogers, secretary; Horace Crane, treasurer. The members of the Assinippi Institute Alumni Association are all boys and girls again when they get together and have a good social time. On motion of one of the members a rising vote of thanks was extended to Mrs. Julia Cashman Rindon for her hospitality. Mrs. Rindon was assisted in receiving by her daughters and grand-daughters. The editor of this paper was an invited guest. After a social hour, the guests departed, concluding the 7th Annual Reunion a complete success.

Lasting Beauty with Varnishes

The beauty and durability of the interior finish depend much upon the character and quality of the varnish you use. You can be sure of securing the beautiful effects that last, if you get

PARENT-TEACHER ASSOCIATION.

The regular meeting of the Hull and Nantasket Parent-Teacher Association was held at the Damon School Monday afternoon, Oct. 11 at 3.30 p. m. with 50 in attendance. The meeting was called to order by the president. The aims and purposes of the meeting were read by the Secretary and a cordial invitation given to all to become members.

The president, Mrs. W. F. Worthen, then read a letter from the state president, Mrs. Higgins, telling about the last Congress of Mothers and Parent-Teacher Assn and the good work done by Massachusetts.

Mrs. Bertha Sylvester of Rockland exquisitely rendered a vocal solo entitled "At Thy Shrine," and for an encore "Perfect Day." Mrs. Henry Burdett of Rockland accompanied her.

Report of the Secretary was read, also report of the secretary of the executive committee. It was voted to accept the recommendations of the executive committee. Mrs. John E. Campbell gave notice that the next meeting should move to amend the constitution to make it possible for the annual meeting to be held in October instead of January. The president was appointed a committee of one (with power to select her associates) to procure napkins, plates and mugs for the Association for use during the social hour. It was announced that the state convention would be held October 28, 29, and 30th at Quincy.

The Treasurer's report was read and accepted and showed \$10.60 in the treasury with a paid up membership of 80 members.

Sixteen joined after a campaign vigorously conducted by the members who showed great enthusiasm. It was suggested that at least 100 members be secured to admit of 10 delegates to the convention being elected. It was further suggested that 110 members be secured and it looks as if it would be accomplished. The following delegates were elected: Mrs. John Kerr, Mrs. Henry Burr, Mrs. Lewis Gilman, Mrs. Brown, Mrs. Victor Reynolds, Mrs. D. J. Murphy, Mr. Henry Burr, Mrs. John E. Campbell, Mr. Nelson G. Howard, Mr. W. F. Worthen.

Mrs. Sirovich tendered her resignation as secretary of the association to take effect after the December meeting. On motion of Mrs. Campbell the resignation was accepted with regret and it was voted to give Mrs. Sirovich a rising vote of thanks for her performance of duties. No further business coming before the meeting it was adjourned to meet at the Hull Village School the second Tuesday in November. A collation of lemonade and cake was served and a social hour enjoyed.

THE N. B. H. WHIST CLUB.

The N. B. H. Whist Club, held their first party at the home of Mrs. Foster Gardner, Thursday evening, at 7.15. Whist was played from 8 to 10 o'clock. The first prize, a cut glass bon-dish was won by Mrs. Anna Coffey.

The second, glass mustard jar set in silver, went to Mrs. Ralph Place, and Mrs. Julia Donavan carried away the consolation. A dainty luncheon was served, after which the social hour and election of officers. This year, the second year of the club, Mrs. Foster Gardner, is president, Mrs. Jas. Joyce, vice-president; Miss Josephine L. Reynolds, secretary and Mrs. Julia Donavan, treasurer.

SUFFS. AND ANTIS.

The votes for women advocates, and those who think women out of place in politics will have it out in a war of words at the Cohasset Town Hall tonight, Friday, Oct. 15. The event promises to be more exciting than a D. A. R. Congress.

ELECT THIS MAN.

George E. Mansfield of Rockland, candidate for Senator, born in North Abington on Nov. 2, 1864, has lived in Rockland since 1872. He is a prominent business man of that town; also a member of several fraternal, social and business clubs. He was a member of the Massachusetts Legislature in 1913 and 1914, member of the Committee on Agriculture in 1913, and clerk of the Committee on Public Institutions in 1914.

Mr. Mansfield made an excellent record as Representative. The last year, 1914, he was the father of, and introduced and advocated 14 different bills, all of his own originality, as follows: A bill to give perpetual care to graves of all soldiers and sailors of Civil War,

GEORGE E. MANSFIELD.

which is now a law; a bill that all crippled and disabled children of soldiers and sailors of the Civil War shall receive state aid, which is also a law; a bill to increase widow's state aid from \$4 to \$6 per month, which was enacted into law.

Bills Presented By Him.

Mr. Mansfield presented the following bills: Making New Years Day a legal holiday; to make state election day a legal holiday; a bill that no public school should commence sessions before 9 o'clock, so as to allow children who live a distance from school ample time to get ready and not be forced to make an early start in cold and stormy weather in order to be there on time; also a bill to make the minimum rate of 10 cents on telephones within a circle of 25 miles of Boston.

Mr. Mansfield presented and tabled a bill to have the price of Sunday newspapers marked five cents, that is to be the price at the newsstands, or six cents if delivered; also a bill that no one person control the sale of newspapers in any city or town in this Commonwealth, but that it should be optional to any and all who should so desire to sell them.

Will Fight For Right.

Mr. Mansfield says "that if elected Senator he will fight hard for this bill to become a law." He voted for Initiative and Referendum in 1913 and 1914. He believes that the people of this, and of all other districts, are entitled to know what their senators do, and how they vote on all important measures. He believes that a roll call is necessary, absolutely in all cases, so that a senator is recorded as he votes.

During this last session of the Senate many of the important bills and measures were held up, and a roll call was suppressed by the party in minority, and not a single person in the district knows how their senator voted on certain measures. It should not be so. The man you elect as senator is your servant, and you are entitled to know how he votes.

Scholars His Guests.

Mr. Mansfield invited the high schools of Rockland and Hanover as his guests last year. If he is elected as senator he intends to have all of the high schools of this district as his guests. George is a live wire, progressive and up-to-the-mark, and promises the voters of this district that if elected he will keep them informed every week of the doings of the House and the Senate. In 1913-1914 he wrote two columns every week in the local papers, giving all of the topics of the legislature. He asks every voter, regardless of party, to consider the candidate's qualification before voting. If the voters will use the same good judgment in selecting their Senator as they do in their own affairs, the Commonwealth of Massachusetts will lead the entire country.

Mr. Mansfield's personality, liberality and easy way of making friends will surely make him our next Senator, a position he well deserve, as a man well fitted, as past experiences have shown from his good record in the legislature.

HAD REAL IDEA OF ECONOMY

Jap Explains How Family Was Enabled to Use One Fan Two or Three Generations.

Among the Japanese economy is held to be a high virtue. Two old masters of Tokyo were one day discussing ways and means of saving.

"I manage to make a fan last about twenty years," said one, "and this is my system: I don't wastelessly open the whole fan and wave it carelessly. I open only one section at a time. That is good for about a year. Then I open the next, and so on until the fan is eventually used up."

"Twenty years for a good fan!" exclaimed the other. "What sinful extravagance! In my family we use a fan for two or three generations, and this is how we do it: We open the whole fan, but we don't wave it out by waving it. Oh, no! We hold it still, like this, under our nose, and wave our face!"—Everybody's.

One on Rufus Choate.
Judge Parry, in a recent article on "Rufus Choate, Advocate," says on occasion Choate would meet with his Sam Weller. Defending a prisoner for theft of money from a ship, a witness was called who had turned states' evidence and whose testimony went to prove that Choate's client had instigated the theft.

"Well," asked Choate, "what do you say? Tell us how and what he spoke to you?"
"Why," said the witness, "I told us there was a man in Boston named Choate and he'd get us out of our boots."

His Error.
"He's a self-made man."
"I know. He surely made a mistake in not consulting an expert."

Stretched Out.
"What is your dachshund's name?"
"I call him 'Art.'"
"An appropriate name. Art is long."

Grape-Nuts

is a success food. It is made from whole wheat and malted barley and, pound for pound, contains far more "go" and "get there" than ordinary foods.

It retains all the nutriment of the grains, including their natural mineral salts—Phosphate of Potash, etc., often lacking in ordinary food, but essential to thorough upbuilding of sinew, brain and nerves.

Grape-Nuts is partially pre-digested and agrees with all. It's the ideal vigor-food for child and adult.

VARIETY OF RECIPES

**ALL WORTH REMEMBERING BY
CONSCIENTIOUS COOK.**

**Vegetable Soup as It Should Be Made
for the Best Results—Potato That
Will Be Attractive to the
Invalid.**

Vegetable Soup.—Take one large potato or two small ones, one carrot and one turnip of medium size, and one small onion; wash, pare and slice them, and let them boil for one hour in one quart of water, adding parsley or any herb preferred for flavoring, and more water as it boils away, so that there will be a quart when done. Thicken with a spoonful of flour or cornstarch, dissolved in a little cold water; or a spoonful of rice or any coarse cereal may be added when the vegetables are half cooked. Strain off the liquid, season to taste, and add a few spoonfuls of sweet cream. If a dish a little more substantial is desired, the vegetables may be rubbed through the strainer also and mixed with the liquid.

Bread Panama.—Toast slowly several slices of stale light bread until they are a golden brown all through. Pile them in a bowl, sprinkling each one with a little sugar and a pinch of salt; then cover with boiling water, close tightly, set the bowl in a pan of boiling water and let simmer gently until the bread is like jelly. Serve warm, with sugar and cream and a grating of nutmeg.

Potato for an Invalid.—Where potato is allowed, select such as will boil dry and mealy. Peel them and boil until well done, then mash very thoroughly with a wire masher until perfectly free from lumps. Add rather more salt than usual and several spoonfuls of thick, sweet cream; then beat until perfectly smooth and light, and serve at once. Potato served in this way is delicious and much more easily digested by a weak stomach than when eaten with butter.

Fruit Toast.—Fruit toasts are delicious and appetizing and may be made either with fresh or canned fruit. Dip the slices of toast in the hot juice, removing them quickly to a hot dish, then thicken the juice slightly with cornstarch, adding the pulp, rubbed through a sieve or finely chopped, and pour all over the toast.

Fruit Whip.—A nourishing way of serving fruit, either fresh or canned, is to press it through a sieve or fine grater, strain it and then stir it into whipped cream, regulating the amount of fruit as desired and sweetening to taste.

Egg Souffle Toast.—Place a slice of toast on a white enameled plate, spread with fresh butter or very thick sweet cream, heap on top the stiffly whipped white of an egg, hollowing out the top to form a nest. In this place the yolks. Set in a hot oven to cook the egg lightly.

Oyster Pate.
One pint oysters, one tablespoonful each butter and flour, one cupful cream, cayenne, grated nutmeg, yolk of one egg, chopped parsley. Line a shallow baking dish with rich crust. Make sauce of butter, flour, cream, sauce, and when heated through whip in the well-beaten egg yolk. At once pour into the pastry crust (previously baked) and beat in oyster about eight minutes. The crust can be molded over inverted muffin cups or made in the regular baking dish lined with paste, and even covered with a second crust is most attractive.

Economical Cake.
The most surprising of cakes can be produced without eggs or butter. To a teaspoonful of bicarbonate of soda dissolved in a teaspoonful of warm water add a cupful of sour milk, three-quarters of a cupful of brown sugar and a half a cupful of treacle. See that the sugar is well dissolved, and then add two cupfuls of brown flour, a good pinch of ginger and a teaspoonful of cinnamon. Beat to smoothness, and pour in while stirring a quarter of a pound of floured raisins—less can be used. Bake in a slow oven for a good hour. This cake is economical, and will keep a long time, but it is better not to cut it for a day or two.

Manhattan Pudding.
Mix together the juice of three oranges, a lemon and a half cupful of sugar; let stand several hours. Whip a cupful of heavy cream, add a half cupful of powdered sugar and a cupful of chopped nuts or candied fruit. Rub a mold sparingly with olive oil, pour in the fruit juices, spread with the whipped cream mixture and cover with paraffin paper, put on the lid and bury in ice and salt for three hours. Serve garnished with sections of orange which have stood over night in a thick sirup of sugar and water.

Scrambled Eggs With Asparagus Tops.
Melt three ounces of butter in a saucepan, break into it six fresh eggs; season with a pinch of salt, half a pinch of pepper and a third of a pinch of grated nutmeg. Mix thoroughly without stopping for three minutes, using a spatula and having the pan on a very hot stove. Add a quarter of a bunch of freshly boiled asparagus tops.

Apple Float.
When making apple float, try baking the apples instead of stewing them. The pulp is removed from the skins and mixed with the whites of the egg which makes the float much lighter than the old way.

Teamster's Words Would Have Required Adjustment Before Their Use in the Pulpit.

A man was brought before a police court charged with abusing his team and using loud and profane language on the street. One of the witnesses was a pious old dorky, who was submitted to a short cross-examination.

"Did the defendant use improper language while he was beating his horses?" asked the lawyer.

"Well, he talk mighty loud, sub."

"Did he indulge in profanity?"

The witness seemed puzzled. The lawyer put the question in another form:

"What I mean, Uncle Aus, is—did he use words that would be proper for your minister to use in a sermon?"

"Oh, yes, sub," the old man replied with a grin that revealed the full width of his immense mouth; "but dey'd have to be 'rang'd dif'unt."—Everybody's Magazine.

**Sick
Women
Attention**

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.
PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. Richmond, 64 Progress Avenue, Providence, R. I.

From Mrs. Maria Irwin, Peru, N.Y.
PERU, N.Y.—"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it."—Mrs. MARIA IRWIN, R.F.D. 1, Peru, N.Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.
SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and had relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. Jane D. DUNCAN, Forest Avenue, West Quincy, Mass.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments should hesitate to try it if she does not try this famous medicine made from roots and herbs, which contains no narcotics or harmful drugs it has restored so many suffering women to health.

BEST WAYS TO COOK BACON

Meat is Too Frequently Wasted Be-
cause Insufficient Thought is
Bestowed Upon It.

Bacon is an extravagant article in
the list of cooking materials because
of its increased price and the fact
that often twice as much as is needed
is used for garnishing other foods.

This delectable meat will probably
never be low-priced again, yet it will
always be a great addition to the
menu, so that to know the best ways
of using it without waste is a neces-
sity if one is to cook well.

The drippings from bacon are the
best sort of shortening for cookies
and everyday pastry; therefore,
every bit of the fat that renders out
in cooking should be strained and
saved for such uses. This reduces the
first cost of the meat very much, for
the shortening bill has soared with
the price of pork.

All left-over bacon makes excellent
seasoning for meat loaves and may
be nicely browned for garnishing by
being dipped into egg batter and then
into fine crumbs and placed in a hot
oven, on a bacon rack, until golden
brown.

If you have never broiled bacon on
a rack you have a culinary treat in
store, for even inferior bacon becomes
fine tasting when broiled so and best
bacon delicious. Any wire broiler or
oven rack may be used; the slices are
spread out, just touching, not cover-
ing, one another, on it and placed over
a dripping pan in a hot oven.

Sometimes bacon is as salty as salt
can make it and requires soaking in
hot water after it is cut; after such
treatment the salt is not too apparent.
The best of sausage can be made
at home with the following ingredi-
ents: One pound of veal, one pound of
fresh pork, one cupful of bacon
chopped and one cupful of cracker
crumbs. Grind the veal and pork fine,
add crumbs and bacon, seasoning of
pepper and sage with little salt, as
the bacon supplies this. Grind the
mixture again and shape into cakes
and fry. Cold meat of any sort may
be used in place of the veal.

GOOD LUNCHEON FOR CHILD

Delicacies the Youngster Will Appreciate
and That Will Keep Him
In Best of Health.

Fairy Apples—Pare and core enough
tart cooking apples to fill a baking
dish; cover them with sugar, and put
a little cold water in the dish, also
several slices of lemon and two cloves.
Then pour a little melted butter over
the apples and bake them until ten-
der. Serve them cold, with a blob
of fruit jelly put on the top of each
and whipped cream about them.

Ambrosia—This delicious dessert
could be an occasional treat, as it is
rather troublesome to make. It re-
quires grated cocoanut, sliced oranges
and bananas, sugar and a wee taste
of lemon juice. Fill a dish with lay-
ers of the different fruits, putting
sugar over each one, and continue in
this way until the ingredients are all
in. Let the dish "blend" while in a
cool place before serving. Fresh
cocoanut is needed, and if the milk of
the fruit is sweet this may be added
to the dessert.

Brown Sugar Sandwiches.—For the
children incessantly craving sweets
brown sugar is an excellent thing to
keep in the house. Spread it thickly
on buttered white bread and put the
slices together so as to make narrow
sandwiches.

Quick Ginger-Cake Pudding—Get
any sort of small or large ginger, or
molasses cakes from the grocer and
cover them with a custard made of
boiling hot milk into which several
eggs are beaten up. Pour the milk
gradually into the eggs, stirring vigor-
ously all the while; sweeten and pour
over the cakes, allowing them to
stand until they have "drowned" up a
good deal of the custard. Serve warm
or cold.

Apple Pudding.

Pare and core one-half dozen not
very tart apples. Butter a granite
saucepan and set in apples with very
little water. Add one cupful of sugar,
two tablespoonfuls of brandy and a
dash of nutmeg. Put over a slow fire,
cover and let simmer without cooking
hard till apples are tender. Take up
when done, being careful not to break
them, and set away to cool, pouring
over them the sirup in which they
were cooked. When quite cold and
ready to serve put in a glass dish,
sprinkle them over with fine macaroon
crumbs and send to table.

Pressed Flank of Beef.

Wipe, remove superfluous fat and
roll a flank of beef; put in a kettle,
cover with boiling water and add one
teaspoonful salt, one-half teaspoonful
peppercorns, a bit of bay leaf and a
bone or two which may be at hand;
cook slowly until meat is in shreds.
There should be but little liquor in
the kettle when the meat is done. Ar-
range meat in deep pan, pour over
liquor, cover and press with a heavy
weight. Serve cold, thinly sliced.

Orange Drink.

Orange juice can be made to serve
as a most delicious drink if only
a little thought and time be spent upon
it. Serve chilled in tall glasses, with
some diced banana, a grapefruit cut
and seeded, a bit of pineapple or any
seasonable fruit.

To Wash Silk Lace.

Silk lace should be soaked in milk
over night, then washed in warm soap
suds. Rinse and pin out smooth on a
clean ironing board until dry. Do not
iron it.

That's Different.
"When we want to say something

"And when the French want to say
something they don't dare say in

"Ah, you could make your fortune in
Paris if you could only discover that
something."

Why They Didn't Go.
"How did it happen you didn't go

"That was the trouble. By the time
I got the outfit paid for I didn't have

The Advantage.
"We want the bald facts in the

"Then we can't split hairs over it."

The Idea.
"What do you think is the most

"With gold bricks."

EVIDENTLY NOT AN ARTIST
Judging From Comment, Bilkins Had
a Good Deal to Learn About
Photography.

Young Bilkins is an enthusiastic de-
voted of amateur photography. He al-
ways insists upon "taking" his family
and friends posed in more or less ar-
ranged attitudes.

Not long ago there was an exhibi-
tion of the work of a local photograp-
hic club to which the young fellow be-
longed, and where were displayed the
results of certain of his efforts to im-
mortalize his family and friends. In
one corner hung a group of figures
twisted into the most extraordinary
positions, the general effect being that
of persons in various stages of par-
alysis.

"Who in the world are those queer-
looking people?" asked someone.
"Oh, those are some of Bilkins'
strained relations," said a bystander.

Enterprising Little.
A writer gives a little sketch of
black and white in Natal. He tells
how he came across a white boy, some
fourteen years old, and a group of raw
natives playing a game. They were
shooting with an old muzzle-loading
shotgun at a bottle on the top of a
case. When the youngster smashed
a bottle he received a "ticky" (a
threepenny bit) from the natives.
When a native hit it he received three-
pence from the boy.

"That seems a funny sort of game,"
remarked the witness to the boy.
"Oh, the game's all right, sir," re-
plied the lad. "You see, I load the
gun."

Are They Still Friends?
The young women present were dis-
cussing their ages. And one of the
girls said:
"I don't know what it is about my
appearance, but everybody always
guesses me a lot younger than I really
am."

And another of the girls answered,
oh, so sweetly:
"Oh, that's after they have heard
you talk, isn't it, dear?"

Acting in One Lesson.
"Do you think I could learn to be a
moving picture actor?"
"Sure you could. Just remember
this one thing: A heaving chest de-
notes surprise, fear, hate or any other
emotion."—Louisville Courier-Journal.

Most of the so-called golden oppor-
tunities that come our way are only
plated.

Other people may have good taste,
but, of course, yours is a little better.

Speaking From Experience.
"Pa, what is the 'first line of de-
fence'?"
"That depends on the circumstances,
son. If this country were at war, the
first line of defense would be the navy.
When a man's married, it's usually the
telephone line, by which he tries to
square himself before he comes home."

Getting Even.
"The cook asked for a week off to
get married, so I gave it to her."
"I don't think I would have done
that. You can't spare her very well
now."

"I know I can't, but it was the only
way I saw to ever get even with her."

The Test.
"I have been chasing a smuggler."
"I call that a pursuit of duty."

Motto for a lawyer: "I will." Mot-
to for a fruit preserver: "I can."

Careful Diagnosis.
"Well, you did you succeed with
your first diagnosis? Did you profit
by my advice?"
The Young Doctor—I think I did,
sir. I told the patient that he was
suffering from a combination of liver,
stomach, heart, lung and brain trouble.
Old Practitioner—Good! No chance
of a mistake there.—Stray Stories.

Logical.
"Do you know, I think Dick acts
rather foolish when he's with you?"
"Maybe so, but you should see him
when we are where no one can see
us."

The silk hat falls too often into the
hands of those who are strangers to
the art of scenic investiture.

There are all kinds of chumps, in-
cluding the one who has a ship tat-
toed on his arm.

INTERESTING ANTIQUITY.

Mr. S. T. Spear of North Scituate has in his possession a most interesting document. It is the notice of a lecture which was found on the boarding underneath the clapboards of his barn which was the building formerly occupied as a store by Job Bailey on the corner of Blossom and Main streets. The document, which is discolored and eaten away so that whole sentences are lost, is on exhibition at Mr. Spear's store for all who care to see it. We give a reprint of what is left of it:

TEMPERANCE LECTURE.
Capt. T. M. Lanthorn, an aged Ship Master from Boston, who has sailed in the Navy and Merchant Trade so as to have Summered and Wintered in the FOUR QUARTERS OF THE WORLD, who is a REFORMED INEBRIATE, will now spread his sails to the Temperance breeze and pursue the Slave Ship.

INTEMPERANCE.
ALCOHOL, and either take her or bring her in for trial, run her down, or blow her up—such is the man who will lecture in the Orthodox Meeting House on Monday Evening, May 25th, at 7½ o'clock, precisely. A general attendance of Ladies and Gentlemen is requested. Editors Note—The dotted lines indicate something left out, because so eaten away as to be undistinguishable. Some doubt exists in the minds of Mr. Spear and the writer as to the date. It was written in lead pencil and was very faint. It might have been Aug. 25. Will someone who knows the year that Monday came on May 25 please supply year, also year in which Aug. 25 fell on Monday, and send data to this office. No one who wishes to see it. In my opinion it is well worth seeing. Mr. Spear says he can imagine the great joy with which Job Bailey posted up such a sign on his store. One gets a mental picture of the redoubtable Captain, weather-beaten but sturdy, who would "take her, bring her in for trial, run her down, or blow her up." The tang of the salt, the booming of the ocean, indomitable spirit, convincing logic, all speak in those few words.

One of the most important features of the production is the dancing done by Quentin Tod and his partner, Miss Helen Clarke. These two dancers display the very newest thing in modern dances and are particularly attractive because of their youth, artistry and grace. There will be a special Columbian Day Matinee, Tuesday, Oct. 12th. For the convenience of patrons living outside Boston, mail orders for tickets will be filled, if money order payable to Shubert Theatre is sent, together with self addressed stamped envelope for the return of the tickets.

Many ministers have used "Experi-

ence" as the subject for sermons pointing out that the story of Youth going into the world is much like the narrative of "Pilgrim's Progress," and that the play teaches a great moral lesson. "Experience" is finely acted by a strong company headed by Ernest Glendon in the role of Youth. Mr. Hector Trumbull, dramatic critic of the New York Tribune, gave an excellent idea of the impression created by the play in the following: "Not only has the playwright drawn a faithful and engaging picture of that much maligned type, English gentlefolk, but he has handled a delicate situation with such a brave show of disarming British wholesomeness that our familiar Frenchy, bedridden farces appear as stuff in comparison."

THIS IS GETTING SERIOUS.

Last week's issue of the Hull Beacon, in its Nantasket column, printed twenty items, nineteen of which were filled from the HULL EAST WIND of October 1st. Lest our readers, a few, a very few of whom, read the Beacon, may think that our contemporary (?) accepted our offer to loan them the type, this paper announces that such was not the case. It was a clear case of lifting. If the readers like state news, all right. But why does not the Beacon give credit.

HIS ARGUMENT TOO STRONG FOR HER.

A cockney longshoreman was telling his friend how he had argued down his wife who, on her way home from a woman suffrage meeting, had tried to convert him to the cause. "She says to me: 'Wimmen ought to have the vote.'

"Garn, I says, 'Livin' 'll be better for all of us if we help make the laws,' she says."

"Well, Bill, she stopped after that. My argument was too strong for her."

HE HIS BRANCHING OUT.

Harold R. West, of the little store at North Cohasset and Allerton, has enlarged his Department Store at the first named place, and added a line of groceries to his stock. Harold is enterprising and up-to-the-minute, and his wife is a very capable and attractive woman. They make a fine looking couple, and with their young son, Andrew, are a very interesting and happy family.

MARSHFIELD

SUSPECT FOUL PLAY.

Frank Mahoney, twenty-eight, of Crescent street, Rockland, was detained there late at Saturday night by Deputy Sheriff John T. Condon following the death of Daniel Driscoll, fifty, of No. 173 Central street, Rockland. The police declared they believed Driscoll might have been a victim of foul play.

Driscoll, who was unmarried, was found lying beside the road not far from the railroad station in Marshfield by Charles Keene. He was badly cut about the head and body.

He was taken into a drug store and Dr. Charles W. Bartlett gave first aid. Deputy Sheriff Condon was notified and investigated the case. John Driscoll, brother of the victim, accompanied by the Rev. P. J. Billings of Abington, hurried to Marshfield and started back with the injured man, who died on the way.

"Medical Examiner Gilman Osgood, assisted by Dr. J. S. Curtin, performed the autopsy on Saturday night. It was reported that the nature of the wounds in Driscoll's head led to the foul play theory.

Driscoll and Mahoney were both employed by Henry A. Baker, a highway surveyor. Mahoney was under Driscoll. Both came to Brant Rock Friday under orders to get a cow that had been there for the summer. They left the home of Francis D. Datch about 6 Friday evening with the cow hitched to the back of the carriage.

Mahoney arrived in Rockland with the carriage and cow.

ATTRACTIVE FOR GUESTS.

Very few young housekeepers have been spared the acute misery of trying to keep the guest room for the unexpected guest at the last minute.

The best sheets were probably at the laundry; the supply of Turkish towels had suddenly reduced itself to rock bottom, and most tragic of all there was not a single presuable nightgown to offer the guest, who had left her own at home.

Only a very few of these humiliating experiences are needed to make the hostess appreciate the advantage of a guest chest. The chest may be a shirt waist box, a curved oak or cedar chest or whatever fits into the general scheme of the guest room.

In it should be stowed a nightgown, kimono or bathrobe, a dressing jacket, an extra pair of slippers, an extra coverlet, hot water bag, several large and small sized towels, washcloths, individual cups of soap, absorbent cotton, court plaster and medical help.

If it is graciously tincted to add other things for the comfort of the guest, articles she might hesitate to ask for, such as a work basket equipped with black and white thread, a darning ball, needles and pins, scissors, cups of hooks and eyes, a roll of linen tape, buttons and numerous other things that suggest themselves.

A list should be kept of all articles in the chest, and as soon as any part of the supply is exhausted it should be replaced immediately.

SCITUATE'S SNAPPY SHOTS

WOMAN'S CLUB.

The first meeting of the year 1915-1916, also the twelfth session of the club, was held at the Club House Oct. 12, the president, Mrs. Lennity Mitchell, presiding.

The president opened the meeting with a few words of welcome, after which the regular business was in order. Miss Mary Ford, of the Literature Department, then introduced Mrs. Ann Field of Brooklyn, New York, a well known author, poet, and essayist.

"Canada Blackie" is one of her recent books. The story centres about a criminal with whom Mrs. Field became intimate, even nursing him during the last days of a long illness.

Mrs. Field is a close friend of Thos. Aldrich, warden of Sing Sing, and through him became interested in prison work.

Auburn was the first prison visited, going there one Sunday for the first time and seeing several hundred men at Sing Sing. She next took up work at Sing Sing.

The subject of her lecture was "Sociology from a Poetical Standpoint." She told many interesting and touching stories of personal experiences with criminals.

Mrs. Field made an earnest appeal to club women to take up some work for public welfare not to be content to live the comfortable lives most women seem to enjoy. Do something worth while.

Mrs. Field was president of a large, active club in Brooklyn but gave it up for the broader, more humane work that is to be a life work with her.

She told of one criminal who said to her that Mr. Osborne was the only man who ever made goodness interesting. This remark seems worth remembering.

Tea was served and a social hour enjoyed by members and guests.

CALIFORNIA SPEAKER IS ASKED QUESTIONS

Colonel Irish of California, Who
Can't Get Audiences in His Own
State, Comes to Massachusetts to
Tell the Men Here How to Vote.
Four Questions Put to Him.

The Massachusetts Woman Suffrage
Association has sent out the following
statement to the press.

Col. John P. Irish of California is
touring our state, urging that Massachusetts
women shall not be allowed to
vote. We wish to ask Col. Irish
four questions, which we suggest
that he answer in his public addresses:

1. If women do not vote when they
can, why has California's vote for
governor almost trebled since women
got the ballot? California elected her
governor once in four years. Equal
suffrage was granted in 1911. In
1906, the total vote cast for governor
was 312,030; in 1910, it was 385,713,
and in 1914 it was 926,689.

2. If suffrage works badly in California,
why has the adjoining state of
Oregon adopted it since California?
If the people do not like it, why did
the California legislature, last
April, pass a unanimous resolution
praising its results? If the Massachusetts
legislature passed a unanimous
resolution on any subject whatever,
that would be a sure proof that the
resolution expressed the prevailing
sentiment of Massachusetts.

3. In commenting on the pending
amendment to the state constitution
of 1912, both men and women were
eligible to sign. There were about
1,500,000 men and women of voting
age in California, yet the anti-suffragists
failed to get the 32,000 signatures
necessary to resubmit the question.
These facts speak for themselves.

4. Finally, if California is not satisfied
with equal suffrage, why was the
attempt to repeal it a failure? Under
the initiative and referendum, a
petition for its repeal was started in
1912. Both men and women were
eligible to sign. There were about
1,500,000 men and women of voting
age in California, yet the anti-suffragists
failed to get the 32,000 signatures
necessary to resubmit the question.
These facts speak for themselves.

CHICAGO WOMEN ALL WORK FOR BETTERMENT.

Mrs. George Bass, President of Chicago's
Women's Club, Tells Massachusetts
Voters About the Work of
Women in Chicago for Common
Good.

Among the visitors at Woman Suffrage
Headquarters recently was Mrs.
George Bass, President of the Chicago
Women's Club.

In commenting on the pending
amendment to the state constitution
of 1912, both men and women were
eligible to sign. There were about
1,500,000 men and women of voting
age in California, yet the anti-suffragists
failed to get the 32,000 signatures
necessary to resubmit the question.
These facts speak for themselves.

"I hope that the women of Massachusetts
get the vote because I realize
what it means to a body of women
to know that their demands for better
conditions are backed by the ballot."

"Out in Chicago it was claimed that
only a few women wanted the ballot
and yet at the last city election the
women polled over 250,000 votes.
This great army of women all had to
be registered."

"If we had had more time we
would have registered another hundred
thousand. All we had to help us
was our desire to do something for
Chicago and when a quarter of a million
women went to the polls we became
a political force for good that
every man in Chicago is proud of."

"Already it is conceded that no
man in public office can hope to get
the votes of the women if he doesn't
work for the greatest good of our city."

"This holds good all over the state
of Illinois. The class of men who are
being selected for official life is improving
and yet the women have only
voted at three elections."

"The women of Massachusetts are
in just the same condition as the
women of Illinois were before we had
the ballot. They can go just as far
and no farther. All the arguments
now being used against Massachusetts
women were used against us."

"We have had a very angry argument.
We voted three times as many
women in Chicago in April as the
vote of Boston will be on election day."

"It isn't that the women of Massachusetts
don't want to vote that
the Antis are fighting suffrage. It is
because the women do want to vote,
just as they wanted to vote in Illinois—
just as men want to vote who
are anxious to help in the affairs of
government."

GRANGES ENDORSE EQUAL SUFFRAGE.

Ever since June 1st the granges
throughout the state have been endorsing
Woman Suffrage, following
out the lead of the National Grange.
The following granges have passed
resolutions between June 1st and
October 1st:

Mystery About Precious Stones.
That the diamond and other precious
stones were made in the unfathomed
and fiery caves of earth and brought
to the surface by volcanic or
other upheaval, is well established,
especially in regard to those of the
South African fields; but more mysterious
than this is that they have been found
in the paths of the ancient glacial
drifts of North America. They
are held to be very vaguely related to
all crystalline forms which are others
of the mysteries.

CLING TO OLD IDEAS

HOUSEWIVES SLOW TO ABANDON ANTIQUATED METHODS.

But There Are Many New Ways of Cooking That Are Superior to Those That Have Been Long in Use—Here Are a Few.

Most of us believe what we are told. If you tell a child a lie, it will believe it as readily as the truth very often. If you tell anybody that a tin pan on an asbestos mat is very hot, he will believe you, very probably, and be careful not to touch the pan, although it may be cold. So it is with the lore of cooking—most of us believe it, take it for granted. It has descended to us, it has been told to us by others. And few of us experiment for ourselves to prove its truth.

So it is that we beat eggs with a fork, laboriously, when we wish to have them especially light. We have learned to believe, because we have been told so, that eggs beaten with a fork are lighter than eggs beaten with a Dover egg beater. They are not. That is the decision of a very careful cook, who has experimented with both kinds of eggs. So why waste arm muscle using a fork, when an egg beater does the work in half the time and less?

Another thing we have believed for years is that gelatin, if boiled, would not jelly. It will. Boiling does not seem to affect it—again, according to careful experimentation.

When jelly, made of fruit juice and sugar, will not jelly, it sometimes needs less sugar, rather than more—that is to say, there is so much sugar that a thick sirup instead of a jelly results, and so more fruit juice must be added to bring the right results.

Another bubble to prick—it is not necessary to have cold oil and eggs, bowls and spoon for making mayonnaise. What is necessary is uniformity of temperature. If the oil has been standing in the temperature of the room, let the eggs and bowl stand there until they are all approximately of the same temperature. If the oil has been next to the ice, put the bowl, the spoon or beater and the egg there to become equally cold.

Fruit Salad.

This delicious and ever welcome dish is made by slicing or cutting into dice various kinds of fruits, fresh or preserved, such as peaches, apricots, bananas, pineapples, oranges, etc. Arrange the fruit in layers in a salad bowl or deep glass dish, sprinkle each layer of fruit with sugar, and pour over a little good sherry or Madeira wine, one or two wineglassfuls, according to the quantity of fruit used, also a small quantity of plain sirup. Place the bowl on the ice for about two hours. Just before serving add a small glass of liquor, such as Kirshwasser, Curacao, Benedictine or Chartreuse. This is a most refreshing dish, suitable to all seasons of the year, but more especially for hot summer days.

Mending Curtains.

Try this method of mending lace curtains: After washing carefully place curtain on frame. Take a needle and use thread according to curtain. Do not knot but tie end of thread to curtain and then proceed to weave in and out curtain as near like the pattern as you can. Small holes may be drawn together. For the larger holes you can readily see what is best to be done. If the curtain begins to dry just take a cloth wet in the starch and apply around the holes. When curtains are hung these places will hardly show.

Rice Chicken Pie.

Boil until tender one chicken or a good fowl, barely covering with water; remove and boil two cupsful of rice in the same water, salt while boiling; put the rice into a dish and stir in one teaspoonful of butter, one and one-quarter cupsful of hot milk and two beaten eggs; season with salt and pepper, put a layer of chicken in a baking dish and then a layer of rice, and so on, until the dish is full, having rice on top; dot with butter and bake till brown.

Celery Roast.

Toast neat slices of bread, butter and trim the crusts from them. Drain dry and broil small oysters till their edges begin to curl, then spread them over the toast. Sprinkle with salt and cover thickly with finely chopped celery. Pour a cupful of hot cream sauce over the dish and place in the oven for a few moments. Serve very hot.

Apple Omelet.

To eight large apples, stewed very soft and mashed fine, add one cupful of sugar and flavor with nutmeg or cinnamon. When cold stir in three well beaten eggs and one-half teaspoonful of cornstarch dissolved in two table spoonfuls of milk. Stir well and bake slowly for 20 minutes. Serve hot.

Green Corn Balls.

Grate enough corn from the cobs to make two cupsful. Into this stir a beaten egg, a teaspoonful each of sugar, melted butter, with salt to taste. Add enough flour to enable you to form the mixture into balls; roll these in flour and fry in deep fat.

Household Hint.

After boiling salt beef leave two or three cooked carrots in the liquor until cold. The carrots will absorb the salt and the liquor will be clear.

NEW ENGLAND'S UP-TO-DATE SEASHORE DEVELOPMENT

Price of lots rapidly increasing in value. To secure best results on investment buy a lot at once.

\$10 to \$25 down \$5 to \$10 a month

This is the most extensive shore development in New England, having a frontage of nearly a mile on beautiful Hingham Bay, around which a beautiful boulevard has recently been constructed. The Estate has a frontage of over 4500 feet on Nantasket Avenue, a well built and well kept highway, through which a water main runs the entire length. During the past two seasons, over four hundred trees have been planted on the estates and they are growing rapidly.

Immense Value as an Investment

As an investment, the immense value and importance of this proposition needs no argument. The value of shore property is steadily increasing along the entire coast of New England. There is no trudging through sand and gravel at Kenberma Park Estates, as several miles of cement sidewalk have been completed and more will be built, so that every lot will have a walk of its own.

Outfitting the Youth for Winter

It is not difficult to dress the young lad correctly, for in his case, as in that of men, a few good styles are given the stamp of approval early in the season and dutifully followed until its close. Men are less independent in dress than women, and the boy also wants to be dressed like his mates. His desires having been fulfilled in this regard he is unconscious of his clothes once they are acquired.

A sensible outfit for the schoolboy from eight to sixteen is shown in the picture above. It consists of knickerbockers in gray or brown mixture and a Norfolk coat. These are worn with a soft percale blouse with soft turnover collar and cuffs and an inconspicuous four-in-hand tie.

The short topcoat is made of a heavy woolen material showing an indistinct plaid. It is double-breasted and finished with large flap pockets, very substantial and firmly sewed down. A woolen cap, strong ribbed stockings and calfkin laced shoes carry out the appropriate details of the outfit. For school, woolen gloves or those of dogskin are in keeping with the coat and cap.

For formal dress a lad from ten to

seventeen wears a black Tuxedo of soft finished worsted. The lapels of the jacket are faced with grosgrain silk, and the straight trousers are knee length. Buttons are small and cloth covered. With this suit a soft silk blouse and Eton collar are worn and a black four-in-hand tie. The vest is of white pique, cut high. For the most formal of occasions, when full dress is required, a vest of white corded silk or of a crepe-silk may be used. In all cases the vest fastens with small pearl buttons. Fine ribbed stockings and patent leather pumps complete the youth's full dress. The topcoat is of dark oxford or dark blue cut knee length.

Save the Edges.

One woman's unfortunate experience will prove of help to thousands of sisters, for she passes along the following information: To prevent the edges of an afghan from wearing, a fine time traveling, sew inch-wide ribbon all around the corner. Let the color of the ribbon match the most prominent color in the afghan. When the ribbon becomes soiled it can be very easily replaced.

Featuring Novel Ideas in Trimming

It is true that a hat of almost any shape may be found among the newly arrived fall millinery and worn with entire confidence as to its good style. An exquisite hat at the left of the group is made of silk laid over a familiar sailor shape. It is a brocade with flower motifs in silver and gold threads. As in the big velvet hat, a concession to the demand of the season for simplicity in trimming is evidenced in this band of black velvet ribbon about the crown. It is finished with two loops and two hanging ends at the back, with the velvet cleverly shirred into ball ornaments to weight the ends. This is a shape that is worn by maid or matron, with the management of the trimming adapting it to the age of the wearer.

The same thing is true of the turban at the right. It has a soft crown of velvet and a coronet covered with a band of novel embroidery, made of silk and little sequins. For trimming, a tall ear of velvet springs from a small circle of ostrich fibers, and is mounted on the crown at the right side toward the back of the shape.

JULIA BOTTOMLEY.

What He Used Them For.
Customer—I want another fire extinguisher. Used the last one all up last night.
Clerk—Glad to sell them to you, sir, but aren't you rather careless at your place. That is the third one I've sold you in a week.
Customer—Oh, I don't use them for fire. They are the greatest thing on earth for chasing out your daughter's late callers.—Judge.

If you are able to appear indifferent the man who wants to sell you his dog finally will give him to you.

There is no capital punishment in Italy.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness. Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

Period of Romance Ended.
"No more shall I hear his footsteps on yonder walk just as the clock strikes eight."
"Gracious, Jeannette!"
"And the old parlor light will never burn low for him again."
"You don't mean it?"
"I do; and, furthermore, he will never sit on this sofa three nights a week and call me pet names, as he has been doing for two years."
"I am astonished!"
"And tonight I am going to burn all the old love letters in my chest of drawers."
"But why? Are you going to discard him?"
"Discard him! Why, you goose, I am going to marry him!"

Warrior of Today.
George Wharton Pepper said at a luncheon at the Plattsburg training camp for officers:
"The methods of warfare have changed enormously in the past year. The sword, for example, is no longer carried. The sword has quite disappeared from war."
"A story comes from the Argonne about a French chasseur who took a German officer prisoner. The chasseur, a boy, a tyro, said to the officer:
"Give up your sword."
"But the officer shook his head and answered:
"I have no sword to give up. But won't my vitriol spray, my oil projector or my gas cylinder do as well?"

Just as He Had Said.
"You remember selling me some hair-restorer when I called the other day to get shaved, you heavy-headed old thief!" roared the indignant customer. "You sold it under false pretences, sir. You said it would restore my head to its original condition."
"Well, didn't it work?" asked the barber.
"Work? No. It's taken off what little hair I used to have, and I am as bald as the pavement now."
"That's quite right, sir. No false pretence about that. I said it would restore your head to its original condition, and you know, sir, most of us are born bald."

Too Much for Them.
It was a minstrel performance, and in the intervals between the songs the usual jokes were being perpetrated.
"What am de difference between an old maid and a married woman?" asked Sambo.
"I done give it up," replied Bones.
"Why," explained Sambo, "de old maid am lookin' for a husband every day, an' de married woman am lookin' for 'in every night!"

There was a pause, and several elderly gentlemen got up and stole softly into the night.

Implement Generally Used.
"Sir, we are starting a new railroad and want your daughter to drive the first spike."
"I have no doubt she will consider it an honor to officiate."
"Thank you. We have provided a small gold spike. Also a silver hammer."

"One minute. I don't think she could drive a spike with a hammer. Better provide a hair brush."

"I should say he is." "Why, he won't even eat cabbage, because it is so intimately associated with corned beef."

Politeness is like an air cushion; there may be nothing in it, but it eases many a hard jolt.

I've settled the roofing question."

Amalite ROOFING

The Big Heavy Roll

A roll of Amalite contains 110 square feet. It takes 216 square feet of other roofings to make as big a roll as the Amalite roll. Likewise it takes about twice as much of other roofings of the same price to equal the weight of Amalite.

Amalite is bulky and substantial. Amalite has a mineral surface that needs no painting, whereas smooth coated roofings require painting every few years at considerable expense and trouble to the owner.

Amalite is flexible and easy to lay. It has a smooth three-inch strip along the edge to insure close joints. Nails and cement are free with each roll.

PRETTY BRIDE AND PRETTY WEDDING.

One of Cohasset's most beautiful girls was united in marriage on Wednesday afternoon, October 6th, at half past four o'clock, Miss Edna E. Valine, daughter of Mr. and Mrs. Manuel Valine and Mr. Charles Esten Soule of Randolph being the contracting parties.

The marriage ceremony took place at St. Anthony's church, Rev. Fr. E. A. Brogan officiating, a large number of relatives and friends being present.

The bride was attired in a lovely gown of blue crepe de chine, trimmed with white point lace, and wore a white lace picture hat, with black velvet crown.

She was attended by her sister, Miss Henrietta Valine, as maid of honor, who was gowned in pink crepe de chine also, with point lace trimmings, and with pink panne velvet hat with pink plume. The groom was attended by a best man, Mr. William S. Barron of Dorchester. The double ring service was used. An informal reception for the immediate relatives and friends took place at the home of the bride's parents, following the ceremony. The presents were many and beautiful, a large quantity of silverware, also cut glass, pictures, etc., having been received by the happy couple.

The gift of the groom to the bride was a string of solid gold beads; the gift of the bride to the groom of honor, a sapphire ring, and the gift of the groom to the best man, a cameo pin. The bride's travelling suit was blue whipcord with blue velvet hat. After a wedding trip to New York, Albany and the Hudson River, Mr. and Mrs. Soule will reside in Stoughton.

The ex-Mayor gave a stirring address on Co-operation in New England, in business and social economies and being in an especially happy mood, as he was to follow the "Royal Roosters" to Philadelphia, he also sang "Sweet Adeline" to the "Queen's taste," as one member remarked. A large attendance was present, about 115, and this enthusiastic meeting augurs a most successful season. Tower's orchestra also contributed to the enjoyment of the evening as in former seasons.

Messrs. Walter Shuekrub, Daniel Tower, Burgess Tower, and Russell Tower comprise this orchestra, and much credit and appreciation is due them as they give their services gratuitously. Supper was served at 7 o'clock. Officers for season 1915-16: President, Mr. Manuel Grassie; vice-president, Dr. Oliver H. Howe; treasurer, Everett Cammons; secretary, Jewett Newton; executive committee, Mr. Edgar Pratt, August Petersen, Roscoe Tisdale, Frank Martin, Jewett Newton.

COHASSET'S COSY CHATS

Mrs. W. L. Parker closed her summer home on the "Neck Road" on Saturday of last week.

A "shoot" was held by the "Gunning Club" on Tuesday, Oct. 12 at Little Harbor.

The Literary Club met on Monday evening, Oct. 11th, at the home of Dr. O. H. Howe. A paper was read by Dr. Howe on "Some Aspects of War."

Miss Rhoda Lawrence of Peabody, N. Y., a student at Simmons College, Boston, is the guest of Dr. and Mrs. Darius Gilbert.

Mrs. Elizabeth Sirovich, Editor Cohasset, also Mrs. Chas. Bicker, Associate Editor of Hingham, Mrs. Julia Treat Bates, Associate Editor of Cohasset, and Mrs. E. E. Bickford, wife of the Chief of the Metropolitan Police, Nantasket, all journeyed to Brockton for the Thursday of last week, going by auto via Holbrook.

Perhaps the most impressive sight seen was the millions of dollars worth of automobiles, ranged row after row, awaiting the gay parties which filled most of them to overflowing. Some of the grounds were completely covered with the lawns in the vicinity of the fair touring cars. Verily the American public is passionately fond of County Fairs and holidays.

Mr. Arthur Badger and family, of Sandy Cove, have returned to town for the winter.

The Suffrage League held a meeting at G. A. R. Hall on Monday, Oct. 11, at 4 p. m. Fancy articles for South Shore table at the third annual Bay State Festival to be held at Copley Plaza Hotel, Boston, Oct. 21 and 22, are earnestly solicited. These may be sent to Mrs. Bristol before Oct. 19.

Mr. and Mrs. Charles Wheelwright of Beechwood, are receiving congratulations on the birth of a daughter. Registration for "Evening School" began last Monday at Osgood School. School opened on Thursday evening.

Mr. Alexander Stoddard and family will spend this winter in town, instead of going to Newton Centre, where they have a winter home.

Among those attending Brockton Fair from Cohasset were Dr. Darius Gilbert, Misses Alice and Dorothy Thayer, Mrs. Russell Tower, Master Leighton Tower.

Mr. Chas. Hatch who has a beautiful country house on King street, will spend the winter in town.

Mrs. Richard Cabot, who has been in for some time, was removed by an ambulance to the Mass. Gen. Hospital on Wednesday of last week.

It is rumored that Mrs. Wyman Lincoln will remove to Petersham, where she will make her home with her daughter, Miss Margaret Lincoln, a school teacher, and Dr. Evan Wentworth Dentist and family will occupy the house vacated by her.

The Veteran Fireman Assn from this town took their handout "bonohasset" to the Brockton Fair last Friday. Weather conditions were decidedly unfavorable but the Vets brought back thirty-five dollars as their share of the day's trophies. It's a cold day when the Vets of Cohasset get left.

O Tuesday of last week thirty-five children and three teachers went in autos to the Brockton Fair to participate in the Folk Dance contest, but on account of the heavy rain which set in soon after they started, there was no dancing on the grass as intended, and children and teachers had to return wet and disappointed. The autos were kindly loaned for the occasion by Mr. Louis Crossett, Mrs. T. Furber and other prominent residents of the town.

The Knights of Columbus Order of this town held a farmers' ball on Tuesday evening, October 12.

Rev. John S. Penman of Cambridge formerly of Poughkeepsie, N. Y., supplied the pulpit at the Second Congregational church last Sunday.

Mr. Lawrence Perry will preach from that pulpit Sunday, Oct. 17.

Mr. George Jason, Jr., removed with his family this week from Lincoln Hillside to Pond street.

Mr. Antoine Figuereido of Parker avenue is a champion tugboat catcher, hauling in thirty-seven on one day of last week and forty-eight on the next.

The writer was one of these fish, a regular monarch among the finny tribes and tasted some others, and assuredly there is nothing better in the market than tugboat fresh caught from the briny deep.

Mr. Louis Crossett and family removed to their winter home on Commonwealth avenue on Thursday of this week.

Mrs. Nellie Johnson has returned from a trip to New York, Niagara Falls and Toronto.

Mrs. Peter Kimball, who underwent a serious operation at her home on Labor Day is now rapidly improving.

Mrs. Joseph Silva has gone on a visit to California.

Unexplored Ungava.

There has not been a careful exploration of the geographical formations of Ungava, and such observations as have been made are so limited that they afford only the means of reaching a rough estimate of the extent and distribution of the different rocks. It is known that there are large iron ore deposits on Clarke, Armstrong and Curran islands, in Hudson bay. Two of the islands are estimated to contain about three hundred and sixty-five million tons of iron ore. From 150,000 to 500,000 has already been expended in the exploration of these iron deposits. The ore is said to be of fine quality, the beds ranging from seven to fifteen feet in thickness.

Many Uses for Cotton.

One hundred and eighty million yards of cotton cloth carry cement yearly to build the great office buildings, and the electrical industry of the country yearly consumes four hundred thousand pounds of cotton in the insulation processes.

AT THE THEATRES

"A PAIR OF SILK STOCKINGS."

After one whole year in London and all last season in New York, Cyril Hall's comedy success, "A Pair of Silk Stockings," has been presented by Mr. Winthrop Ames at the Wilbur Theatre, Boston, where it met with instant favor. In bringing to Boston this exceptional attraction from his Little Theatre, in New York City, Mr. Ames stipulated that it must be played at the Wilbur Theatre where the intimacy of its limited capacity lending its charm to an intimate play is the key-note of the great success of this new playhouse.

The stockings about which the plot more or less revolves do not assume a conspicuous importance until the latter part of the second act, although they are worn by Molly Thornhill until the disrobing scene. Nevertheless other matters pleasantly titillate one's interest while awaiting the presentation of the actual nucleus.

"EXPERIENCE."

Last Week of this Most Wonderful Play in America at the Shubert Theatre, Boston.

The final week of "Experience" at the Shubert Theatre, beginning Monday, October 18, is announced by a regretful management, and this celebrated morality play will have to leave Boston at the height of its extraordinary success, Saturday night, Oct. 22. Every effort has been put forth to extend the engagement, but in vain, as contracts for another attraction at the Shubert Theatre were signed before the management of the theatre realized the immense hit "Experience" was destined to score in Boston.

The usual Wednesday and Saturday matinees will be given for the remainder of the engagement. It should be remembered that the matinee performances given on Wednesday afternoons are bargain matinees, when the best orchestra seats may be had for one dollar.

THE BLINDNESS OF VIRTUE.

"The Blindness of Virtue" will begin the third week of its run on Oct. 18 at the Castle Square Theatre. Not since "Common Clay" was put on last year has a play given by the Craig Players made such an instantaneous hit with the public as has "The Blindness of Virtue."

It would seem as if every mother and daughter in Boston were taking the advice of Mary Young and seeing this play, which teaches such a powerful lesson to parents.

The story is of a girl who is not told by her mother of the physical laws of existence and through her ignorance she is nearly betrayed. It is only her guilelessness that keeps her father from believing that she has lost her innocence through love for young Archie Graham.

Miss Young, William P. Carleton, Betty Barncott, Donald Meek, Theodore Frisbus, Mrs. Vida Grey Sidney and Justine Adams are in the cast.

Nobody Home.

"Nobody Home," the fascinating, musical comedy which opened the season in Boston, will start its third month at the popular Hollis Street Theatre next Monday evening. In the history of the theatre in Boston there has never been a musical comedy of such phenomenal success. Its syncope, its lifting melodies, pretty girls, clever comedians and charming dancing have made it the talk of the town.

One of the attractions at the Hollis Street Theatre is the augmented orchestra of twenty-five musicians gathered from the Boston Symphony Orchestra. It is one of the many delights.

"THE BIRTH OF A NATION."

At the end of its thirtieth consecutive week, after having played no less than three hundred and sixty times to as many separate and distinct audiences, "The Birth of a Nation" will terminate its Boston engagement on Saturday night, October 30. During this marvelous run, which long ago broke all previous Boston records for consecutive engagements, no less than 800,000 people have been numbered among the Boston audiences, which means, in other words, that the number of people who have seen the mighty Griffith spectacle equals four-fifths of the entire population of the city.

SCITUATE.

Dr. Dew and family have returned to their home on Marlboro street, Boston.

Mr. and Mrs. Grant Drake of Melrose spent the holiday at their cottage on Hatherly road, Milot.

Mr. E. W. Pierce has purchased the house on Beach street, which was owned by Mrs. MacFarlin.

Mr. Albert Hays and family are occupying their cottage on Cleveland avenue.

Mrs. Everett E. Bickford and Mrs. Elmer E. Bickford of Nantasket attended a matinee performance of "Experience" on Wednesday afternoon.

Mr. and Mrs. G. F. Godfrey are taking a trip around New York. It is said the journey is by way of a wedding anniversary trip.

The "Vets" certainly covered themselves with glory at the Firemen's Muster at the Brockton fair. They got two prizes, \$80 and \$15. Some "tub," Some "Vets."

Mrs. Lovejoy, Mrs. John Beals, Jr., Miss Carolyn Carter, Mrs. Richard Mead, Miss Murray and others from this town will march in the Suffrage Parade on Saturday.

Mr. and Mrs. Edward Jones took an auto trip to the northern part of the state on Tuesday.

The all-important business of the excellent housekeepers of this town at present is preserving, fruit and their temper also.

"It is a good thing to run one's temper," says a prominent lady of this town.

Mr. and Mrs. A. J. Landry will move from their home at Weir River to Cohasset for the winter, where they have taken a house. Mr. Landry will thereby be more convenient to his business in Scituate and Cohasset.

Honorable Archers.

The British Honorable Artillery company were at one time mighty men with the bow and arrow, and they were most particular as to the replacing of what were known as the archer's marks—wooden pillars in the open spaces of the capital. Several times in the century before last the valiant men of the H. A. C. (who date from the year 1537, when they were incorporated by Henry VIII) asserted their old archer privileges, and replaced marks that had been removed by encroachers. In 1791, when the Long Butts at Islington Common were destroyed by grave-diggers, the artillery company were wroth, and compelled the vandals to restore the targets. In 1842, of all the open ground for archery, there remained only a few acres to the north of the City road.—Pall Mall Gazette.
